SIR::

INTERNATIONAL STAGE EXPRESS MAIL CERTIFICATE

"Express Mail" label number EL728211511US

Date of Deposit March 6, 2001

I hereby certify that the following attached paper(s) or fee(s)

PRELIMINARY AMENDMENT

is/are being deposited with the United States Postal Service "Express Mail Post Office to Addressee" service under 37 CFR 1.10 on the date indicated above and is/are addressed to the Commissioner of Patents and Trademarks, Washington, D.C. 20231.

CONNIE YANNOITI

Typed or printed name of person mailing paper or fee)

(Signature of person mailing paper or fee)

Each paper letter or communication relating to an international application during the international stage for which a date of filing is to be obtained as of the date of mailing must have its own certificate and the "Express Mail" label number as a part thereof or attached thereto. When, as here, the certification is presented on a separate sheet, that sheet must (1) be signed and (2) fully identify and be securely attached to the paper or fee it accompanies. Identification should include the serial number and filing date of the application as well as the type of paper being filed, e.g. complete application, specification and drawings, responses to rejection or refusal, notice of appeal, etc. If the serial number of the application is not known, the identification should include at least the name of the inventor(s) and the title of the invention.

The label number need not be placed on each page. It should, however, be placed on the first page of each separate document, such as, a new application, amendment, assignment, and transmittal letter or a fee, along with the certificate of mailing by "Express Mail". Although the label number may be on checks, such a practice is not required. In order not to deface formal drawings it is suggested that the label number be placed on the back of each formal drawing or the drawings be accompanied by a set of informal drawings on which the label number is placed.

Sir:

PRELIMINARY AMENDMENT

Please amend the application as follows.

RECEIVED

AUG 03 2001

3600 MAIL ROOM

IN THE DESCRIPTION

Please replace the paragraph beginning at page 7,
line 11, with the following paragraph:

al
Conveniently, the front and rear ski members have
the same width. However, as shown in Figure 3, a rear
portion of the rear ski member 67 located rearwardly of
the rear most bracket 64 is arranged to be wider than the
remainder of the member 67 which remainder has a
substantially constant width.

IN THE CLAIMS

Please replace the following claims with the
following clams:
